Linux Maintenance (LPIC -1)

Finished LPIC-1 Course from South Industrial Management Institute (Iran) (simi.ir)

License No. 2747-8328-4852-2155

Apache Zeppelin

Html/CSS

Basics

## Programming Skills

C++

Multi-threaded Programming

Cryptography

OpenMP/MPI

Java

Android Development

Core Java Development

SQL and Data Extraction

C

Multi-threaded Programming

OpenMP/MPI

C# Windows

Scripting in Unity

WF app development

Passed a course in Shiraz University (100/100)

Python

## Languages

---

English

Fluent ( Native)

## Portfolio

---

- I have made a 2D Endless Runner game using Unity (available on my Github).
- I have coded multiple Meta-heuristic algorithms in C++ (available on my Github).
- I have coded two algorithms to break one time padding and vigenere cipher encryption algorithms with few constraints (available on my Github).
- As my B.S project, I have developed a simple wifi chat application using sockets in android. (available on my Github).
- As my MSc. project I am currently working on Emotion Analysis on Textual Data from Social Networks.
